In addition, he has had a great deal of experience in connection with the actual application of the full line of insecticides and fungicides, from the older copper, arsenicals, etc. thru DDT and Parathion to the various new phosphate insecticides and newly developed fungicides and weed killers.

Cinematic Chatter

By Malcolm Millar

Nature crossed up the Laurence Oliviers, as the story from Hollywood goes. Larry and his wife are now awaiting the birth of a she-calf on their country place in England. True to their tradition they want to name her "Carrie" in recognition of the William Wyler production Oliver starred in. Sir Laurence and his Lady started the practice when they first went into the cattle business on a small scale. They now have their own Jersey herd of five cows. These calves are named "Sabine", and "Lily" from "Skin of My Teeth", "Balance from "A Streetcar Named Desire", "Perpetus" from "Venom Observed" and "Smilia" from "Captain Carvallo", from recent stage productions. Now they want to add "Carrie" to the herd and they thought the moment had arrived recently when they learned a new calf had arrived.

But the Baby was a Boy Bull!! "Ow Beasty embarrassing and annoying, ya know. Comedian Alan Young has headed off from Hollywood on a personal appearance

junction that will take him into eight of the nations leading cities. The popular stage, screen and television actor is now appearing in New York, starting his travels from there. Close friends of the Academy Award winner Jane Wyman say they won't be surprised if the actress ties the knot with her current boy-friend, Travis Kleefeld. They claim the friendship between these two is far more serious than meets the eye. I don't know what Jane is getting for a husband, but I can say Travis is getting one adorable lady for his "best gal friend." See you at the movies—Mal.

The calf business is still good out on the Walter G. Hull Ranch near Pahokee. Again yesterday the stork visited his herd and brought twin bulls. FFA Group Plans A Cattle Project

Alfred Meeks, president of the Pahokee Chapter Future Farmers of America, at a chapter meeting in the agricultural building Monday night named David McCoy, Albert Gamot and Bobby Bush on a committee to purchase two steers for the chapter, the steers to be fattened as a chapter project.

The group made plans to enter several contest teams in the FFA sub-district contest to be held in Clewiston, Friday, April 25. The chapter's 1952 "sweetheart", Miss Carol Carpenter, will also participate in the sub-district contest. Tentative plans were discussed for an FFA barbecue to be held in the near future.

On the program of entertainment, recordings of the National FFA Band and Chorus were played. Charles McCurdy, a member of the Pahokee FFA Chapter, played in the National Band when the recordings were made in Kansas City, Mo. A color film, "Land of Our Fathers," was shown at the meeting. The film was produced by the American Cattlemen's Association of Sheridan, Wyo., and obtained through the Florida Cattlemen's Association.

In the attendance drawing Terrel Echoes received as a prize a dozen red and white gladioli grown in the chapter flower plot.

It was announced three members of the chapter, President Alfred Meeks, Eugene Buchanan and David McCoy will enter cattle, which they have raised in individual projects, in the Southeast Florida Livestock.

New Method Bridge Building Is Studied

GAINESVILLE—A stronger, yet cheaper, method of construction of steel and concrete bridges is being tested by two University of Florida civil engineers.

The State Road Department thinks so much of the new idea that they plan to use the new method for the first time in the construction of the 18,000-foot Tampa Bay Bridge. And the two engineers, Prof. Sterling Bugg and Dr. Charles E. Cutts, are so convinced that improvements can be made that they are continuing experiments.

By the new method, concrete is poured in rectangular beams around cable wrapped in building paper. As the concrete hardens it adheres to the paper and thus permits the cable to run free. The two engineers have found that the ultimate strength of steel cables in the new method is 200,000 pounds a square inch against 65,000 pounds by other methods.

They say the new method permits the use of stronger, but less, steel. Less concrete is also needed and a saving of 20 per cent can be effected.

Newspapers More Valuable Than Before

JACKSONVILLE—Newspapers have a community of interest with all business and a special affinity for motion pictures, because, in the final analysis, we're both selling a perishable product," says Raymond H. McKinney of the New York firm of J. P. McKinney & Son, advertising agency.

McKinney goes on to say, "If the American people are going to adopt the habit of staying home, it will hurt the newspapers and business, for the stay-at-home is not exposed to the influences of downtown movies. Movie men can be sure that the newspaper is the greatest ally of the motion picture. We have common interests."

That represents the thinking of advertising men on the impact of TV on American social, business and entertainment habits and shows that, whatever affects one section of the business community interests all of us who are involved.

Might As Well "Get In Key"

Last Tuesday Judge Cunningham wanted to go fishing. "Why aren't you working?" I asked.

Judge explained how his wife had gone on a trip, taken his keys by mistake—and now he couldn't get in the office. So we went fishing.

Next day, he wanted me to go again. I was surprised those keys hadn't shown up yet. "The little woman phoned to say she mailed them," the Judge explained. "They're now in the office, under the mail slot. I'd get 'em if I could just open that door." He grinned and picked up his fishing rod.

CHURCH and CLUB NEWS

Holy Week Service Planned By Church

Holy Week at the Episcopal Church of the Holy Nativity will consist of the traditional Palm Sunday ceremonies and a Passion service on the night of Good Friday. Next Sunday the Palm Sunday service begins at 11:15 A. M. with the blessing and distribution of the palms. Then after the Palm Sunday procession will follow the Holy Communion at which the celebrant, the Rev. John Clarence Petrie, will read the Passion according to St. Matthew. Due to the length of the ritual the sermon will be short.

On Good Friday the church will be open all day for prayer. At 8 P. M. there will be a Passion service with a sermon on the cross by Father Petrie. He will preach in Clewiston during the noon hour and from 2 to 3 P. M. in the community Three-hour service at the Moore Haven Methodist Church.

Next Wednesday he will address the students at the Clewiston Elementary School on "The Meaning of Holy Week and Easter" and will address the Kiwanis Club at the Clewiston Inn on the same subject.

New Members

New members of the Pahokee First Methodist Church who joined the church recently through transfer of letters include Mr. and Mrs. John Elbom from the Memorial Presbyterian Church, West Palm Beach; Mr. and Mrs. John E. Johnson from the Berry Methodist Church, Philadelphia, and Mrs. Arthur Larrimore from the Augustana Lutheran Church, Omaha.

Gospel Concert Is Planned Canal Point

A double header gospel concert is scheduled for Canal Point at the school building on the night of April 11 at 8 p. m. The local Lions club is sponsoring the big event and the evening's entertainment will be furnished by the Happy Four of Dade county and the Upthegrove Trio of Canal Point.

The Happy Four have appeared many times in Miami and Dade county and throughout South Florida. They will have been featured by the Dade County Singing Convention. The Upthegrove Trio has won itself a warm spot in the hearts of the folks around Lake Okeechobee and the members are all well known here.

Net proceeds from the affair will go for the benefit of the school, according to officials of the Lions Club.

Christian Science Group Of Canal Point

Mankind constantly faces the question as to whether spiritual things or material things shall be accepted as real. The Lesson-Sermon to be read in all Christian Science churches next Sunday is on the subject "UN-REALITY", and the unreality of matter is contrasted with the reality, presence and power of Spirit, God.

The Golden Text is from Ecclesiastes 5:7: "In the multitude of dreams and many words there are also divers vanities: but fear thou God."

Bible selections include this from John 1: 3: "All things were made by him; and without him was not any thing made that was made."

The following passage from "Science and Health with Key to the Scriptures" by Mary Baker Eddy is also in the Lesson: "Everything good or worthy, God made. What ever is valueless or baneful, He did not make, — hence its un-reality" p. 525.

The Pahokee Chapter who plan to attend the meeting of the OES Grand Chapter of Florida in Tampa April 8-12 are Mrs. Jessie Barnes, Mrs. Ruth Carpenter, Mrs. Edna Barrett, Mrs. Eva Twitty, Mrs. Ellsworth Keen and Mr. and Mrs. D. W. Young.

Streets After Seat On R R Commission

WEST PALM BEACH—Mayor Pease Streets of Lake Park last ed out tonight at the record of the Railroad and Public Utilities Commission as an "open check book, using the public's money".

Speaking at Flagler Park in the keynote address of his campaign, the 44-year old candidate for the Commission charged that recent telephone rate increases granted in the north and south of Florida were uncalled for and totally unjustifiable.

"The Commission can, and probably will, claim that the various dockets and orders surrounding its findings make its record an open book. My reply is 'Yes, it's an open book—an open check book, using the public's money.'

The Commission candidate pointed out that it was not his intention to rebuke the utility companies or the railroads for having requested and received rate increases.

"My argument is with the members of the Commission that granted those increases in cases where they have been unfair to the people and unjustifiable. It's a corporation's job to get all the traffic can bear. But it's the duty—the sworn duty—of members of the Railroad and Public Utilities Commission to protect the public's welfare.

"If chosen by the people of Florida to serve them," he continued. "I can promise no miracles. I will bring to the office my experience as a businessman, the reputation for integrity I have enjoyed in public life, and a complete sense of responsibility toward the public which the Commission was really created to serve."

Mayor Streets stated the three major principles on which he is campaigning for the statewide office.

"This is not a negative platform; it is a positive platform," he said.

1. I will be unafraid to buck the majority of this three-man Commission in event I see a decision which, in my humble opinion, is against the public interest. In other words, I will not hesitate to cry out to the public press when I feel their decisions are unjust.

2. The homemakers of Florida want security, their feet on solid ground; they do not want a feeling of fear against the rubber stamp of a Commission of such power that it can cast their future

into gloomy apprehension. I will use my vote toward creating an optimistic and fear-free public.

3. Businessmen should be free of any whim of a Commission so powerful that it can determine an industry's very life by its decisions on railroad, truck transportation and utility rates. As an advocate of the free enterprise system, I believe in a fair return on capital investment. However, the small businessman must be protected.

Cancer Research

TAMPA—An award of \$2,000 for cancer research to the University of Florida was presented this week by Dr. Charles C. Lund, of Boston, President of the American Cancer Society and internationally known surgeon. The presentation was accepted by Dr. Francis C. Ray, Director of the Cancer Laboratory of the University of Florida.

The grant-in-aid in part of a total of nearly \$1,800,000 awarded for research projects and fellowships recommended by the Committee on Growth of the National Research Council which advises the Society on this aspect of its program.

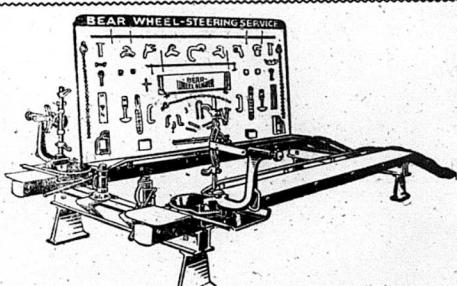

The nationwide program included 51 grants-in-aid and 197 renewals to scientists in 35 states at a cost of \$1,660,207, institutional grants and fellowship awards will bring the year's total research expenditures up to about \$3,859,000.

Do you have Series E Defense Bonds coming due this year?

Here's a money-earning opportunity for you

Now—a new law lets your maturing Series E Bonds go on earning for you ten years longer! And you don't have to do a thing!

ARE YOU one of those patriotic citizens who began buying—and holding—Series E Bonds ten years ago? Now your government is going to reward your faith with a chance for your bonds to earn extra money—over and above what you'd expected!

According to the bill passed by Congress last spring, it is now possible for your United States Series E Bonds to continue earning interest ten years longer than was originally planned.

Therefore, if you started an automatic bond saving plan, and helped your country at the same time, you can look forward to ten years more of effortless earning from the bonds you bought!

For example, a Series E Bond which cost you \$18.75 in 1942 will pay you \$25 in 1952. But

if you hold that bond ten extra years, until 1962, it will pay you \$33.33, an average interest of 2.9%.

And there is nothing for you, as a bond holder, to do. You need not exchange the bonds you have. You need not sign any paper, fill out any form. You simply keep your bonds as you have been keeping them.

You may still redeem any Series E Bond at any time after you've owned it for sixty days. (The tables on this page show what you can get for it.) But, unless you really need the cash you're much better off to hold your bonds; they are a paying method of saving. Bonds are safer than cash! Cash is too easily spent on nonessential things. And if you lose or accidentally destroy it, you're out that much money. But when you have cash in Defense Bonds, you're more apt

to hold on to it. And if your bonds are lost or destroyed, the Treasury will replace them for you at no cost or loss to you.

The cash you have in bond savings is safe and solid; and it's steadily growing toward a sum big enough to buy something really worth while when the proper time comes—a home, a business, a retirement fund, an education for your children.

So if you have bonds coming due, take advantage of this new offer of your government—just sit back and let them go on making money. Meanwhile keep adding to your savings by buying more United States Defense Bonds regularly—through the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank.

If you want to be paid your interest as current income—

The new law also allows you to exchange your Series E Bonds, in blocks of \$500 or more, for Special Series G Bonds which pay interest semiannually at the rate of 2.4% per year. For full details, ask at any Federal Reserve Bank or Branch.
